

DAVIS BEHAVIORAL HEALTH

Adult Substance Abuse

substance abuse programs that provide screening, assessment, individual and group therapy and day treatment in Davis County

Davis Behavioral Health
934 South Main Street
Layton, Utah 84041
801.773.7060

Davis Behavioral Health substance abuse programs are designed to meet consumers' individual needs in achieving and sustaining a healthy environment in which to live a substance-free lifestyle.

Listed below are substance abuse programs offered by Davis Behavioral Health.

MEN'S RECOVERY CENTER - MRC

a gender specific treatment program for men aged over 18 years with substance addiction or co-occurring illness. The MRC program promotes abstinence from substance use, improved physical and psychological health, improved family and social functioning, improved educational/vocational functioning, reduced involvement with the criminal justice system, improved housing conditions, and increased utilization of community outpatient resources

DAVIS FAMILY ADVOCATES

designed to help consumers access services needed to maintain a substance free lifestyle through case management. A needs assessment is completed and service plan developed to meet individual needs. Case managers coordinate and link consumers to services and routinely monitor progress

934 South Main Street
Layton, Utah 84041
801.776.7060

INTENSIVE OUTPATIENT

addresses more severe problems related to the addiction process and provides services on an intensive basis in a group format. Services include screening, assessment, individual and group therapy for residents of Davis County

934 South Main Street
Layton, Utah 84041
801.773.7060

OUTPATIENT

individuals are assessed and treated within the Personal Centered Recovery Model format. Services are customized for each consumer
